

# CRICKET Kids Remote

## Simple Parental Control

With the large variety of programming available to viewers today, parental control over what content children are exposed to is a major concern. Cricket provides parents with an effective and fun means of controlling what children are watching by giving them access only to channels that are for a younger audience.

## Safe & Durable

Cricket has been designed with child use in-mind. The Cricket has passed stringent child safety and durability testing to ensure parental peace-of-mind.

## Easy Setup & Kid Friendly Features

**Simple Content Control** - Cricket automatically "hops" from kids channel to kids channel, skipping other channels that may have content that is inappropriate.

**Favorite Channel Line-up\*** - The standard configuration comes with the following list of channels:

- Animal Planet
- Cartoon Network
- Discovery Kids
- Disney Channel
- Disney XD
- Nickelodeon
- Noggin
- PBS Kids

Two additional buttons (1 & 2) for you to program two favorite kid's channels of your choice

**Customizable Image Compartment** - The round image compartment on the front of the remote can be used to display a child's favorite photograph character or cartoon.

## Secured Programming

Within the screw-secured battery compartment, there is a three position switch that is used to set the operating or programming mode for the remote.

**Child Mode** - Each favorite channel key takes the user directly to the associated channel. CHANNEL UP/DOWN keys only cycle through the 10 programmed favorite channels.

**Standard Mode** - Operates the same as a Child Mode, except that the CHANNEL UP/DOWN keys allow the user to cycle through all channels available.

**Programming Mode** - Easily program the remote including: configuration of the TV and assign new or additional favorite channels.

**\$15<sup>95</sup>\***
